

DR7109CB

DR7109CB is a dark green snacking cucumber with good colour and crunch. It offers improved fruit quality and high yield potential.

Disease Profile

HR	CMV/Ccu
IR	CVYV

Features

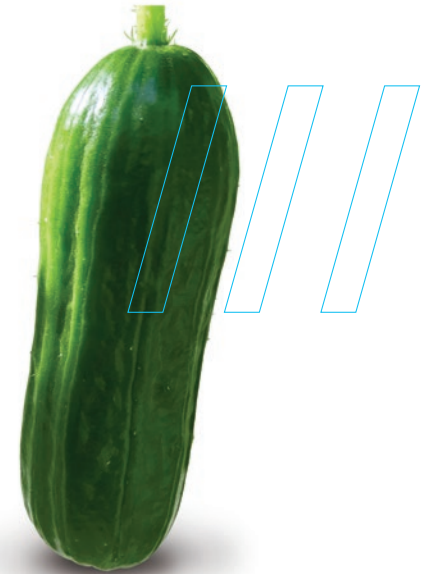

- // Average fruit length 9cm
- // Average fruit weight 35 – 40g
- // Multi-fruiting variety
- // Compact leaf structure with short internodes

Advantages

- // Early and high yield potential
- // Generative variety with easy labour management
- // High density growing for increased yield

Benefits

- // Good returns from early and high yield potential
- // Consistent fruit size enables efficient packing
- // Lower packing costs due to consistent fruit size and quality

Agronomics and Cropping Tips

Environment

- // Heated glasshouse on substrate or Greenhouse

Season

- // Year round

Specific advice

- // Keep good plant balance, do not allow production of fruit too high in the head of the plant
- // Adequate watering required to maintain fruit length and consistency
