

Sweet Trick

This compact, juicy watermelon is small in size but big on appeal.

Type

Watermelon, Round to Oval.
Intense consistent red flesh.

Average Fruit Size

5-7 kg

Disease Profile

HR	Co:1
----	------

IR	Fon:1
----	-------

Features

- // 5-7 kilos
- // Early maturing at around 77 days from transplant
- // Good yield potential
- // BRIX 11.5-12.5°
- // Uniform round to oval with brilliant red flesh

Benefits

- // Smaller and easier to handle, whether in the paddock or the supermarket
- // Ready for harvest 5-6 days before larger varieties, providing gross margin relief and allowing you to get your product to market more quickly
- // Huge consumer appeal with sweetness, flavour, and deep red flesh colour
- // Good yield with less risk of loss to disease

Grow Sweet Trick if you're looking for

- // Diversity in your offering to the market
- // Staying ahead of consumer trends and freight costs

Agronomics and Cropping Tips

Environment

- // Suited to all production areas.

Season

- // Year round

Specific advice

- // Variety can be grown grafted on DR0141TX, Maxifort or Equifort
